

SIRMIXALOT COCKTAIL MENU

We recommend selecting up to 4 cocktails for your menu

Once your cocktails are chosen, we also need to know whether you wanted 45ml alcohol or 60ml alcohol per cocktail

Don't forget that you can select flavours for certain cocktails. Example: For a margarita, you can have a classic, coconut, and chilli margarita on your menu and this only counts as 1 cocktail selection

If you can't find a cocktail or need a custom creation, we will do our best to accommodate for this

It is possible to change the alcohol or ingredients for some of the cocktails

Most of our cocktails are mocktail friendly, a heart will be located next to those
